

Snowman Sequencing Activity

Print out the following pages and cut into strips. Each strip has a picture from *Making A Snowman* and text describing a step in construction. Mix up the strips and invite students to put them into the correct order. Another possibility is to cut the pictures and text apart for each strip and use them in matching games.

Printing tip: Set up page to print in Landscape. Scale down the page slightly, or set for Borderless Printing, if part of the sheets are cut off when printed.
