Attributions For The Xeno-canto Post

Since this post has so many photos and sounds, I decided to have a separate sources list. I've shortened the sounds considerably in Audacity, and cropped, edited, and lowered the resolution of the photos quite a bit in PhotoShop®. PLEASE download the original sounds and photos if you want to use them.

All the sounds were downloaded from Xeno-canto.org, and all the photos from Wikimedia Commons, except for the Great Horned Owl photo, which is mine. If you prefer to download a PDF of these sources, see the online **Credits**. If you'd like the original of my portrait of Katori, a very good-looking young Great Horned Owl, you can download there also.

Locating The Original Photos

To find the originals of any of the photos (except the owl), copy just the name of the photo (ends with .jpg) from this list, go to Wikimedia Commons, and paste the photo name into the **Search** box there. There's a link to WikiMedia Commons at the bottom of **Free Stuff** in the sidebar.

Locating The Original Sounds

To find the originals of the sounds, copy just the numerals of the catalog number (without the **XC** prefix) from this list, go to Xeno-canto.org, click to open **Advanced Search**, type **nr:** and paste the catalog number (no space after **nr:**) into the top **Search** box. Be sure you are on the **Advanced Search** page. The prefixes won't work in the regular **Search** box.

Sounds used in this post:

- **American Robin** (Turdus migratorius) by Ted Floyd 2017 (CC BY-NC-SA 4.0) Colorado (near Lafayette), Boulder County, Colorado, USA. Cat.# XC364638.
- **Canyon Wren** (Catherpes mexicanus) by Anthony Gliozzo 2016 (CC BY-NC-SA 4.0) Mount Baldy, San Bernardino County, California, USA. Cat.# XC322511.
- **Common Loon** (Gavia immer) by Lance A. M. Benner 2015 (CC BY-NC-SA 4.0) West Mount Vernon, Kennebec County, Maine, USA. Cat.# XC240521.

- **Emu** (Dromaius novaehollandiae) by Marc Anderson 2013 (CC BY-NC-SA 3.0) Helensburgh, NSW, Australia. Cat# XC132935.
- **European Green Woodpecker** (Picus viridis karelini) by Albert Lastukhin 2019 (CC BY-NC-SA 4.0) Lerik, Ardabil Province, Azerbaijan. Cat.# XC480296.
